

Top Gpu For Mining

Admin guide

Model

1. In the Admin Drop down menu select models
2. Click اصف
3. Fill the below form then click اصف

Add Model

الاسم عربي

الاسم انجليزي

الوصف عربي

الوصف انجليزي

اضف

الغاء

4. After that you should see all models as picture below

الاسم	الوصف	الاجراءات
RX 570		<div>تعديل</div> <div>حذف</div>
RX480	RX480	<div>تعديل</div> <div>حذف</div>

5. Also you can delete or modify model name or description.

Brand

1. Same Model steps.

GPU

1. after adding (**brand** and **Model**) you can add gpu by select the Model type and Brand type and fill the form

Add Gpu

If the GPU is on amazon, you can type in the ASIN number and it click Get info to fetch the data

الاسم

Brand

Model

Asin

الوصف

Get Info!

RX 570

RX480

2. you can fill the gpu info manually and click add .

3. or if you find gpu in **Amazon** and you want to add it to **Top Gpu Mining** you can do it easily by taking **Asin** number from amazon and enter the number in Asin text-box and click (Get Info!) to fetch the data

الاسم

✓ you can also change the data and click add.

Algorithm

- 1- The algorithms list is filled automatically by the system and updated periodically (for more information check system jobs header)
- 2- Also, you can add algorithms manually same **Model** steps.

Hashrate

1. After adding **algorithms** and **model** you must add the hashrate(Mh/s) .
2. You can take the hashrate from <http://whattomine.com/>
3. Example to extract the hashrate for **model 480** and **algorithm Ethash**:
 - a. In the first to rows in <http://whattomine.com/> you can find all models types , insert 1 in front 480 model :

0	380	0	Fury	0	470	1	480	0	570
0	750Ti	0	1050Ti	0	1060	Insert hash rates and powers for a number of 480 8GB Using 1150/2150 with 0.2V undervolt and ETH bios mod			070T
Groestl		PHI1612		CryptoNight					
Hash rate		Hash rate		Hash rate					

- b. After that you can find the hashrate value under the Ethash

Ethash	Groestl	PHI1612
Hash rate	Hash rate	Hash rate
29.5	18.0	15.0
Mh/s	Mh/s	Mh/s
Power	Power	Power
135.0	130.0	130.0
W	W	W
Daily cost	Daily cost	Daily cost

- c. In admin page Add the hashrate and select same model and algorithm
Add Hashrate

Hashrate (Mh/s)

29.5

Algorithm

Ethash

Model

RX480

Price Source

- 1- If you have price source you can add It in this window and select from DDL the source(AmazonUs,AmazonUK,New Egg).

Add Price Source
